Thread: [Brains October Illustration \(Signature\)](#)

Oxtus - October 2, 2017, 5:54 pm

Signature spots been empty for a while, I was going to wait to set up a shop and advertise there, but I love October!

Overall this design took around 6 hours, good illustrator practice.
Opinions cnc welcome. Thank you for viewing.

that looks really good man, imo maybe if you only had a stroke to make a border then it would look better than having it fade at the ends

Thanks for all the feedback guys, really appreciate it. Been challenging myself as much as possible. Working on finishing up a few more Halloween themed Illustrations, next ones a pumpkin head with a twist.
