Thread: [MAKING FREE SIGNATURES](#)

Goals - October 5, 2017, 3:03 am

Hello,
I am practicing my graphic designing skills (sorry if it sucks), so I've decided to do a free service of making people signatures. I might make it GIF, I might not, depends on the time I have. I don't know how many I'll be doing, but I will try my best to do all of them. If I accept your request, don't get your hopes up, I might not make it if I don't choose to/have no time. Also I might add a little water mark in the corner that it was created by me

UB3R and above only!
1 per person.

Request Form
Use this form to make a request. Using this makes it easy for me to understand and read your request. If you do not use this, I may not make your image.

Whilst GIF have the ability to withstand transparency, it cannot handle high resolution edges. I can make it look transparent by using the Hackforums background colour as the background

(Oct 5, 2017 04:41 PM)Admirably Wrote: [\[CITE\]](#) I'd like to get one similar to lowkey's one, instead something related to sales, replace "Hackforums" text to "Admirably" and "Lowkey" text to "Signature for sale"

Sure! When I get time I shall make yours
