Welcome to the Limitless Basic Buyin

Owner: [Nex+](#)

Leaders: [Makaveli The Don](#) - [The Illusionist](#)

Description: The only limit to success is yourself.

General Information:

Unlike my other thread, which is located [here](#), you can buyin to Limitless for a price at \$40. However, this will not give you near the benefits as you would be getting from buying into the - PenTesting - Cracking - Rooting - More - thread. You will still be apart of Limitless, get to use the subforum, wear the userbar but you will not have access, nor get the password to our subfroum within Limitless. This is for the \$75 buyin people and them only. Some people may not think what is and isnt worth it, so here is an opportunity for those looking for a cheaper buyin at just \$40.

If this was 5 years ago, I would probably be shitposting about how stupid selling spots is.

But groups on HF are trash af these days, so why not make some money from it.

Snow - October 6, 2017, 12:34 pm

I might be interested in buying in. Just to check out the group. I don't know if I will post much though because I am so busy. Do you have an activity requirement?

I am thinking about buying 5 spots for myself, but maybe if we PM him we can get a discounted price since we buy alot of slots for ourselves?

I can't wait to join this group and learn how to make thousands in a day!

Anyone who posts something that can even remotely be considered negative will have their post reported for Sales Trashing and the post will be removed and depending on the post content, get a warning.

Save yourself some time and don't bother writing a post that will either way get removed.

Anyways, I am interested in a spot or two, really considering purchasing, seems like such a great opportunity for moneymaking.

a subforum full of public guide is worth the \$35

The group was being sold ~ 3 weeks ago and has now had a 'miraculous' turnaround and is selling buyouts. I seem to recall drama last time a guarantee was offered also.

I don't get why posts on this thread + the last are being deleted as sales trashing when they're discussing the thread in a section called "Group and Crew General DISCUSSIONS".

I dont get why you talking smack when I already replied to his question. You cant give him the answer and no one on this forum can except for me as its my group. So please do not tell him how long he will be in for as you dont regulate the memberships nor anything regarding the group.

Thanks

You replied to his question something like 10s prior to me doing so. I can give him an answer based on seeing this scenario play out in the past. There's a reason you have the stigma you do.

On topic, \$40 for only a guaranteed month is ridiculously expensive.

I have seen all his previous groups and they are all of outstanding quality. Talking to Nex+ is like talking to a real professional businessman which you usually don't see around in this forum and it is really an honor for me to be able to type this on a thread made by such a god like Nex+. I wish I could join his well coordinated group which only has prestigious people in it, being able to join such a group with only \$40 is really an honor.

You don't have to wish. Just pay the \$40

You forgot to mention that he is such a knowledgeable person. He is so intelligent, a true master in SQLi attacks. He once told me that he actually does not use Havij. He is a kind of person that you can only look up to, due to his grace for mere 40 dollars you can be a part of his group. He will teach you the secrets to successful entrepreneurship such as Android Rooting, Cracking Netflix accounts and many more. His selflessness knows no boundary, his previous price was set at \$75 but due to him understanding that not everyone is an entrepreneur, he decided to lower the price so us lowly plebs at HackForums could enjoy this life-changing group and soar to the entrepreneurship Heavens with a single step. All hail our lord and saviour, Nex!

Well, TBF, it is a marketplace thread as the OP is selling something and is fully within his rights to do so in this marketplace. I take no sides but if someone posts a marketplace thread in another section using a sticky, they would still get the same rights as the marketplace. I guess there just isn't enough buy-in groups to warrant their own section in the marketplace.

Limited spots left for this, pm me if have any questions
