Thread: [CLASH ROYALE GEMS \(SAVE \\$100\)](#)

Pompeyo - October 6, 2017, 9:17 am

Don't bother asking me how I do this, or if you can buy this method. It is 100% legal. Any issues I will refund you, top you up again and give you x5 what you paid for. I'm almost 1000% sure nothing will happen.

14,000 gems = £28.50 (GBP) which is also equivalent to \$37.22.
In game, 14,000 gems = £99.99 which is also equivalent to \$130.55

I will not be giving any vouch copies or using a middleman. You will have to deal with me at your own discretion. I'm sure once I get a sale or two you will feel safe with this service. The ETA (estimated time for delivery) is around 1hour to 1hour and 30 minutes. Payment in BTC only. IOS only.

Contact me via private message if you're interested.

I'm sorry but I actually invest some money into doing it for you, only gaining a small profit, hence why I cannot give copies or use middlemen.

I'll be sure to contact you once I made a sale. I can also show my 35,000 gem balance.

Since user says he is not going to use middleman so this looks very sketchy, as user invested some money in his account to get reps and fame but nothing turned according to him, his account got filled with negatives so what he's trying to do now is getting his money back he invested in his account just by scamming couple of members here.

Anyone dealing with this USER MUST USE A MIDDLEMAN, be alarmed this is most likely a scam.

Why only for first deal, middle man can be used for every deal. you won't lose much fees.

Ask your mm to pay very less fees and you can accelerate the transaction easily by using Confirmtx.com .

That clears up the most part, might wanna state all this info in your main thread.

Now you'll just have to wait for someone to take the risk on buying this and leaving a vouch.

Or you can do a discount for the first sale that is the minimum of your 'investment' for your gems.
