Thread: [Exploit kit](#)

mike.feller - October 7, 2017, 3:34 am

I want to buy an exploit kit for putting to my own website and get access to my viewers using the following platforms:

- 1) android
- 2) ios
- 3) windows
- 4) linux

Does anybody know a very powerful exploit kit to be used in this way?

whysoserious1948 - October 8, 2017, 4:10 pm

i know how build one pm me

mike.feller - October 9, 2017, 6:47 am

I can't pm now. tell me your account to chat on skype or facebook or telegram
thanks

Exploit kits are very costly - the Phoenix exploit kit sold for over \$2K - therefore you should probably only buy from respected sellers so you do not get scammed - As well as using a middle man.
