Thread: [Giving away a method to earn free 0.0039 BTC from your OLD BTC/LTC/DOGE wallets](#)

SIM-1589588 - October 7, 2017, 6:11 am

If you are using bitcoins/Litecoins/Doge from 2014 and still have your old wallets, you can earn some free money. There are some specific requirements and if you met those requirements you can get 0.0039 BTC per btc/ltc/doge address.

I have made over 1000\$ from this method which I will be now giving away.

Method is posted publicly now.

Sorry this is very old, I posted that thread few months back so I'm not sure how much you will be getting now.

Please be aware that by giving your private keys you are giving your Bitcoin addresses so make sure it's empty and you are not using that wallet anymore.

PS: Now you can use poloniex for this too.

IN 2014 a coin was launched. It was named CLAM. The developers then gave every Bitcoin, Litecoin and Dogecoin address 4.6 CLAMS and burnt the left over. Now clams worth more and you can exchange them for bitcoins. You have to check your bitcoin/litecoin/doge addresses for clams.

If you held a balance on May 12th 2014 in a BTC, LTC, or DOGE address then you most likely already have CLAMcoin waiting to be dug up.

Note: If you do have CLAM please empty your wallet and never use that address again once you dig CLAMS (better safe than sorry.) because you need to provide private key of address.

How to check clams

1. <https://freebitcoins.com/clamchecker/dig/> (manual) This is main site which you need to use.
2. https://freebitcoins.com/clamchecker/dig_wallet/ (automated digging)
2. Check any address for free in order to see if it has Clamcoins.
3. Follow the digging options for your payment in Bitcoin directly or Clamcoin.

Clamcoin Official website: <http://www.clamcoin.org/>

Example address : 1nPfxnncZqWvVP4UHT6XLfNzfaiK7akQS 0 BTC BALANCE

I had bitcoin balance on 12th of may 2014, so I am eligible for clams. I will receive 0.00735 BTC (32\$) if I give private key of my 1npfxnn Address.

If I have 10 address like this, then I will get $10 \times 0.00735 = 0.0735$ BTC

<https://gyazo.com/ea774aac6ce7bd570dc5660a508e76b3.png>

Once you provide Private key of your address, and your bitcoin address to receive payment.

You will get a key to check status. Within 24 hours you will receive payment.

key example: xTwcqebDXTDjWY9WbLoaJHPiGBuusC7RBH

Check pending dig:

(Oct 7, 2017 06:11 AM)J.P Morgan Wrote: [\[CITE\]](#) If you are using bitcoins/Litecoins/Doge from 2014 and still have your old wallets, you can earn some free money. There are some specific requirements and if you met those requirements you can get 0.0039 BTC per btc/ltc/doge address.

I have made over 1000\$ from this method which I will be now giving away.

Please post here or PM me.yo how?
Please send me a message!
