Thread: [Looking for Partner\(s\) with Good Ideas](#)

Cometrex - October 7, 2017, 6:05 pm

As the title says, I am looking for a Partner or Partner(s) with good ideas. I am currently looking to get into the online forum scene, and hoping to find a partner who has good ideas already or has a great sense of creativity. I will be able to fund the project, as well as help with the creative side of things.

I am not looking to for anything Illegal or Blackhat/Greyhat

James Burnham - October 7, 2017, 7:24 pm

And in return, you will be asking for 50% of the earnings? What if the idea is good in theory but bad in practice?

(Oct 7, 2017 07:24 PM)? Mr. Burnham ? Wrote: [\[CITE\]](#) And in return, you will be asking for 50% of the earnings? What if the idea is good in theory but bad in practice?

It depends on the kind of project, and how much work I personally put into it, but yes 50%. Not looking to get into anything illegal. Only looking to invest and start whitehat projects.

Mr. Robot - October 8, 2017, 3:17 am

I'm for sure working on a few projects right now man, Already got the business plan written up for this one + a demo and some designs.

Funding you could either fully fund a full prototype for a kickstarter/indigogo campaign to raise the funds or fund the entire project.

Prototype is under 10k.
