Thread: [FB Page with 500k likes/followers.. Monetization Ideas?](#)

Durka Durka - October 7, 2017, 8:40 pm

Page is weed related, avg 500 to 2k likes per post.. I have a few ideas I'd like to implement , but wondering what other people had in mind.

I believe most people with large pages make money through advertising/paid posts- that are still related to their page.

This could be done through product placement, t-shirts etc..

I've looked into it and people are offering way less than I would make if I created my own e-commerce/service site and just advertised my own products. I did this before with another page that had around 60k likes (also weed related) and was up to 7k in income per month selling stoner goods before some issues came up. I'm doing Amazon now in a different niche so not sure if I could juggle both Amazon and a different site at the same time. It's definitely something I'm keeping in the back of my mind though if nothing else comes up.

I think you must build an email list and for that you must create an ebook and offer it as a freebie .The book must be related to quit weed or marijuana .Then you can target clients on email list

Cpa is an option, give something away and put a locker in front of it, maybe weed merchandise,

pipes, bongs etc

I would recommend dabbling into advertising/paid posts honestly. Good luck mate.

Shopify mate.

Free + Shipping offer with upsells, abandoned cart and followup emails...

You'd kill it.

I personally think you're going to have to put in some serious effort to get more followers before you even consider monetizing.

500k followers isnt enough ?

I have my own meme page with around 1.100.000 fans and 30k on intstagram. Got insane amounts of people contacting me to advertise their product on my page or just a shoutout. You will definitely make around \$500,- a day with 500k fans by selling promotion slots.

I am currently writing an Ebook about it to get the most out of your fanpages. It is really insane how much you can make and the competition is nothing special as it has 2 billion active users on Facebook and 800 million active users on Instagram.

Another option to consider is making stoner phone cases and merchandise (tshirts, hoodies etcetera) on Teespring and promote it on your page.
