He previously purchased my guide "[Plug of All Trades](#)", so it caught my interest that he would offer me a copy since I'm expecting something of the same quality or better. As soon as I started reading the guide I knew it was legit because it has been one of my own income streams for quite some time now, even though it is NOT listed on my "[Plug of All Trades](#)" guide. So instead of posting a review that is going to seem biased to some of you, I decided to give ichivictus full rights to include my guide "[Plug of All Trades](#)" to all of his sales as a bonus. I will only review eBay Entrepreneur here , as I already did a review of Plugs. Plugs helped me make my first 1k on the internet but I bought it pretty early before it became saturated on ebay.

Ebook is 3 pages long and consists of 2 methods (1 core and 1 bonus).

Let's begin with the core: the base of the method is really nothing new, you probably all heard about it once in your journey to the holy dollar. Exactly as Plugs was doing it, op gives you the first example, to begin with.

What's different tho, is the little tips and tricks, Invictus gives you . 2 of them are quite interesting and I didn't see those elsewhere. The third tip was already in some ebook sold on this forum.

About the bonus method, I didn't see it elsewhere yet but it's technically part of the core method. I'm personally considering that bonus method more like another example but less saturated.

If we had to talk about numbers, I would say probably 15-20\$/day in the beginning if you use the tricks. You will be able to earn more if you are creative and success to be different.

You won't need to maintain or handle something once the order is done and that's really great when we are talking about selling a digital product.

In terms of support, I already knew op before because of his previous method. Meaning I know he is online nearly every day and will be there to help you. For the few I had to talk to him about his method, he answered me within 15 minutes.

So yes you might make money with this method, but only buy it if you know you can be creative and willing to put that extra time in details. With creativity, you can make sales even on a saturated item.

The guide requires very low investment + if you can do the thing yourself that'll be free money for you. I have tried the 4th method before and I have generated about \$300+ in a week selling in bulk. The guide is written very neatly. The price of this guide is already very affordable and cheap. This guy deserves 9/10 rating from my end!

100% digital so you won't be dropshipping or dealing with physical items.

I can't really guarantee a sale on the first day. But it's very likely you will. If you are having any troubles, I can give some support.

I've made a purchase, and these books seem only 'okay'; I'll try to earn money with them first, but I'm skeptical... Will need to actually see earnings before believing this can work. The methods require constant maintenance and high activity levels.

By the way, since these are digital products, they are technically against eBay ToS. Most don't mind, but just putting this out there.

I'll contact OP and see if he can help me out to make this less complicated.

What is the VeRO Program?

eBay is committed to providing our customers with a safe place to buy and sell while respecting the rights of intellectual property (IP) owners. The Verified Rights Owner (VeRO) program allows the owners of intellectual property rights and their authorized representatives to report listings that may infringe on those rights. Did a quick market check on the products in OP's book, and it's very saturated. Need serious help from OP to learn how to even get any sales, because I almost don't get any motivation to try.

It's only \$25, and I suppose the method can work, but it's highly saturated and I'm worried if I've made a wrong purchase.

DO NOT BUY THIS METHOD (The plug of all trades).

I bought this method and it does not work. Ebay account suspended within the first 12 hours. The method is nothing but common sense. If you have a brain you can easily do what's stated in the eBook.

Do not waste your time. I invested \$40 + \$30 on the ebook, but got \$0 and a suspended account.

I messaged Conejo or whoever was first selling this method and received a big fuck you.

I don't suggest you buy it. It will not make you money. It's not that easy. If it was easy OP wouldn't be selling it.

It is easy. But it does require some effort. Obviously. I mean you did read it didn't you?

It's saturated if you look at just the current listings. But if you follow the advice in both guides, you will get sales. But I am providing you with 1-on-1 PM support so I hope I have your vouch for that at least :)

Easy != No effort. It's easy because it's just selling digital things on eBay. Some people work, you know, outside their home and don't even make as much money. My friend works in construction and makes way less. I'd rather sit on my ass, be my own boss, and make more money.

Galardowyn - October 13, 2017, 10:46 am

Finally, after multiple weeks, Ichivictus gave me a vouch copy for a review . I will only review eBay Entrepreneur here , as I already did a review of Plugs.

Plugs helped me make my first 1k on the internet but I bought it pretty early before it became saturated on ebay.

Ebook is 3 pages long and consists of 2 methods (1 core and 1 bonus).

Let's begin with the core: the base of the method is really nothing new, you probably all heard about it once in your journey to the holy dollar. Exactly as Plugs was doing it, op gives you the first example, to begin with.

What's different tho, is the little tips and tricks, Invictus gives you . 2 of them are quite interesting and I didn't see those elsewhere. The third tip was already in some ebook sold on this forum.

About the bonus method, I didn't see it elsewhere yet but it's technically part of the core method. I'm personally considering that bonus method more like another example but less saturated.

Money won't be easy. It will require time before you can probably make your first \$. You might even need to do some investment in order to land that first customer. The core method looks and is really saturated if you can't think out of the box .

If we had to talk about numbers, I would say probably 15-20\$/day in the beginning if you use the tricks. You will be able to earn more if you are creative and success to be different.

You won't need to maintain or handle something once the order is done and that's really great when we are talking about selling a digital product.

In terms of support, I already knew op before because of his previous method. Meaning I know he

is online nearly every day and will be there to help you. For the few I had to talk to him about his method, he answered me within 15 minutes.

As a conclusion, I would like to say that: when a method is about eBay, only buy it if you know how to stand out of the crowd .There is no secret on this platform, that's the only way to make sales.

So yes you might make money with this method, but only buy it if you know you can be creative and willing to put that extra time in details. With creativity , you can make sales even on a saturated item.

Never only criticise a method without giving some solutions to it or improvements. Things that could be changed :

- Add maybe 2-3 pictures to make the method more real.
- Reorganisation of the ebook. The last section should be higher in the ebook as it's important.
- Put some minor title to split into the big ones. Especially in the section on the third section
- Make a summary
- Add your contact details so the customer knows where to find you in case of a problem .

Rating: 6.8/10 : the base method is well known but you give some tips that could help making sales. Pictures are also needed in the book.

Hope it helped you make the right choice and see you next time!

Thank you for the honest review mate. I agree with your review and I will be updating the guide with your suggestions!

As you mentioned, the value in the guide isn't just telling people what I sell to earn \$\$\$ but it's how I get sales by thinking outside the box. I hope others can see the value in that knowledge which can be applied to nearly all items on eBay.

Digital items are often saturated due to how easy it is to ship, compared to physical items. The tricks and tips and whatnot bypass this saturation.

I bought this method and it does not work. Ebay account suspended within the first 12 hours. The method is nothing but common sense. If you have a brain you can easily do what's stated in the eBook.

Do not waste your time. I invested \$40 + \$30 on the ebook, but got \$0 and a suspended account.

I messaged Conejo or whoever was first selling this method and received a big fuck you.

I don't suggest you buy it. It will not make you money. It's not that easy. If it was easy OP wouldn't be selling it.

Let me correct that for you. You bought my guide and failed to implement it. You don't contact me at all because apparently "support" to you means only showing you how to list on ebay..but ok. ?

Apparently you must've messaged someone else because I never sent you a big fuck you. I conduct my business as professional as possible and you're just sour as fuck because someone from HF is reporting listings on eBay. & now I know who it is or who one of them is to confirm that. If you have issues you discuss things like civil fucking humans.

Additionally, let me quote you "The method is nothing but common sense. If you have a brain you can easily do what's stated in the eBook."

Let me quote you again "I don't suggest you buy it. It will not make you money. It's not that easy. If it was easy OP wouldn't be selling it."

Now that you have posted how you feel about my guide "Plug of All Trades" to the HF Community, feel free to PM me your PP or BTC address so I can "refund" you.

Here's a screenshot of our only conversation.

I think what Conejo is trying to say to everyone else is to contact us if you have any problems. You aren't just getting an eBook. You are getting support from 2 people as well who have been doing this for a long time.

Am I able to get a refund too? I'm not keen on getting my account suspended :S

ichivictus - October 14, 2017, 9:20 am

I can't refund people who are unwilling to try it. You already told me that you don't even know how to start and have 'newbie paralysis'.

I never said you will get sales as soon as you put up a listing. And you never showed me your listing. How can me or conejo provide support if we don't even know what you are doing?

PM me your listing and screenshots of your advertising strategies. I can help you make them better so you get sales.

Edit: Just saw your edit about not being keen on having your account suspended. You won't get your account suspended if you do it right. And my guide is white hat anyways. All other buyers have been able to do this without a problem. In fact, I got a sale notification on my phone while typing this. \$40 profit.

Ichivictus' guide is completely whitehat. My guide is Grey hat because you are breaking the eBay TOS which is stated in my thread that it can be viewed as Grey hat.

Here are some new earning reports from me! I got pretty lucky the last few days, I admit, but you can too! PM me or add me on Discord for any questions!

Conejo and I are offering support every day. Please contact us with any presale questions or support questions.

We are also considering opening a 1-on-1 mentorship program where we guarantee earnings or your money back.

Reselling AutoCad education licence, everyone knows it. It's old and doesn't make as much as it used to.

Nope it has nothing to do with that.

Thanks for the stupid assumptions and sales trashing.

I've learned that ichivictus's method is also apparently against eBay Policy. Of course, eBay is stupid, so many people are doing it and saturated, which also makes it difficult, but again I don't want to end up with a suspended account like iExploits did.

Well considering you can't follow the simple guide, come to us with links or screenshots for support, and only complain about trivial things, I get it that you don't understand how we get around the tos.

Our PM conversation is thousands of words long. And you still haven't profited. Sorry but I think this probably won't work out for you seeing as I doubt you are putting much effort into the strategies I outlined in the guide itself. I suggest learning self-discipline before trying to make money online. Being your own boss is a bit harder than it sounds like.

If it is so saturated, why am I making thousands, other customers are making hundreds already, and you zero?

ichivictus - October 22, 2017, 5:45 pm

Conejo is currently providing most of the support at the moment while I deal with midterms and projects at my Uni. And I will fix the thread design when I can. But we are still here and kicking ass on ebay. Still answering questions through pm and discord.

ichivictus - October 23, 2017, 2:39 pm

I haven't been doing much lately on eBay, but still raking in money thanks to Plug of All Trades. Remember, buying this comes with both!

Here's my earnings just yesterday, doing absolutely nothing. No shipping, just digital. Never been chargedback because the customers love the product!

ichivictus - October 24, 2017, 2:54 pm

Still here and providing support. Easiest way to get a hold of me is Discord if anyone needs support.

Is there a code for the 37 discounted price? I already earn a bit of eBay but interested in your methods.

Thanks,

Yes the coupon code is 25PERCENT, thank you :)

Professional27 - October 25, 2017, 3:23 pm

I am personally offering a bonus only to the next person that makes a purchase. Needless to say it is information that is not included in any of the guides and will help you earn an additional \$50+ per day. Very modest estimation since yall like to make things difficult for yourselves in the first place. Don't let your ego keep you broke. This works and we're here to support you along the way.

dogsmix - October 25, 2017, 5:57 pm

Does this involve selling like digital codes on ebay? Maybe getting it from one place for cheap or generating them yourself with student discounts or whatever and selling them on ebay?

I have personally earned over \$2000 with this since I purchased it about 35 days ago. That your eBay account got suspended is unfortunate, but obviously a risk.

iExploit is just a spammer. I just ignore him now. I'm happy Plug of All Trades has worked out for you! Keep it up :)

Oh and iExploit also has a few scam reports that he completely ignored. So he's a spammer and a scammer. What a high-quality user!

Professional27 - October 26, 2017, 12:37 pm

This guy was still here spamming?! FFS..

@iExploits you are either 1; making money with the use of my guide and want to keep the niches and markets to yourself or 2; Was already doing this before purchasing my guide and now you're pissed that I released this to the HF Public. In either case this shit works my guy. If it's because you got your eBay account suspended, my Sales Thread clearly says it is Grey hat because of eBay TOS. However the rest of the markets mentioned in the guide are not. Which even still all you had to do was contact me and I would have helped you out but you never even made an attempt. I stand behind all content that I post on the forums, I don't post garbage I'm a bit too old for that. Feel free to continue fueling my threads homeboy or get over your ego and earn a good living with us.

Well we've only had one person give a bad review, but that person is a troll and admins have been getting rid of his posts. Other than that it's been pretty much nothing but positive. You can PM, discord, or skype for questions. Whatever you prefer! All contact details are in the OP.
