1. I can provide you with this if needed yes.

2. I do not use the tool, and it all depends on how hard the password is to crack.

Of course buddy.
But even if I PM you, you won't be able to reply to my PM until you have 25 posts haha.

Regulus - October 19, 2017, 11:04 am

The cracker is still working smoothly for me :)

velvetkitty - October 19, 2017, 6:16 pm

I'm interested in purchasing the tool. What are the next steps?

scorpionking674 - October 19, 2017, 7:12 pm

Do you have a discord channel? I just purchased your product and i would like to know how to use
it. Because I'm getting some error codes and I don't know what im supposed to be doing here as
there are no guides. Everytime i clicked username/password file, it gives me unhandled exception
error.

UglyG0d - October 19, 2017, 8:42 pm

PMD you need help with targetting 1 account instead of cracking multiple from a combo list

Hey, i've been waiting for your reply dude.

Namoor3 - October 20, 2017, 1:27 pm

Hey, Say the targeted person has an 8-character password with Capital + Small letters & numbers,
How much would it take to get it?

The program has been updated so it should be working just fine now.

It all depends on the password list.

Airness - October 28, 2017, 8:35 am

There's a lots of free proxy scrapers around to be honest.

What I usually use when I crack I use this site even though they're kinda public.
