Thread: [Dawn | Coding Recruitment](#)

**iKinky** - October 10, 2017, 6:54 pm

[Click below to start the recruitment process]

## F.A.Q.

» How the recruitment works

- ? Simply apply with the form above.
- ? It will be a rolling recruitment until we have the desired amount of members.
- ? If you are chosen you will go onto the next stage. Further details will be discussed in the "second stage".
- ? Immediately denied if you have an open/valid scam report against you.

» Motive

- ? We will not be creating a bunch of products to sell in the marketplace.
- ? Everything that I have planned at this time will be released to the community for free.
- ? Positive engagement amongst other programmers.
- ? One more thing - we will not be operating like a "classroom". However, I will have informational threads available for you to access.

That's okay, i don't expect the majority of apps to submit public work. I'll contact you privately about past work.
