I could sell you some, I used to have a website but can't afford that shit no more.

FIFA 18 Coins - XBOX One:

80K - \$10 btc

160k - \$16 btc

320k - \$26 btc

640k - \$48 btc

1.25 mil - \$70 btc

I recommend starting with the 160k one, testing it out then seeking if you want more, if you want more, i will discount the original price, no worries. I just don't want any issue for refunds and

chargebacks. Pm for planning.
