Thread: [Private XMR Silent Miner/Stub \(Paying Well\)](#)

amazingxxx - October 9, 2017, 5:22 am

I am looking for a skilled dev that can make me a private XMR silent miner builder/stub that will only be used by me (if it is only a stub then obviously it can't come from a builder being used by other or for others).

Requirements:

- No dropped files
- Low stub size
- Works with Cyberseal crypter
- Anti sleep (prevents PC from going to sleep after a certain amount of time as well as when the lid gets closed, if it is a laptop)
- Scantime FUD (I can crypt it later when it becomes detected, I just need to see that you can do it)

Optional but preferred:

- 32bit and 64bit compatible mining
- gpu mining
- Most miners seem to get detected at runtime by some AV if you could lessen this in any way that would be amazing
- native
- Use XMRig as the miner (unless you suggest something different due to it being better or less detectable)

If you can do this please PM me.

Payment will depend on:

- Whether it is a stub or builder
- The dev's experience (will look at past products on HF or you can send me examples of your work if you have not sold on HF),
- Features (please suggest more features if you think I would want them, I am open to anything and will pay more for a feature you suggest and I want)
- Dev's reputation (not your HF rep value but what other knowledgeable people have said about you).
- Any other factors you think should increase your pay (I'm not trying to gip you)

I understand that to fulfill my request to the best of your ability you have to be monetarily motivated. The payment will work out to a high \$/hr of work and I am always open to your feedback and opinions on it. Honestly, I want the highest quality product and am willing to spend whatever that will take.

EDIT: Completely understandable that some people are suspicious about my account that is why I have no problems paying first if you are a trusted member of HF. Otherwise, we can use a middleman.

BuSt3R - October 9, 2017, 7:43 am

Id be willing to do this, whats your budget?
Send me your contact details in a pm.

Also, this will not be allowed for resale...

Another Note, We will require a deposit due to your reputation, and suspect account...

You also have 0 reputation and member just a week.

@OP I would suggest you use a middle man if you don't want to risk your money. ?

Your account was created 7 days ago and "Latest IP Matching Other Members: 1" so ... you ain't no

spring chicken yourself.

I suggested to use middleman for the safety of both of you.
I just warned for your safety, what you will do after that it is not my problem.
