Thread: [\[New\] ANDROID Silent Apk Installer !](#)

SIM-3420445 - October 9, 2017, 8:25 am

Hi there everyone , After Our Success of our Project

[Voyager](#) we have decided to work on Silent Apk Installer as per our customer requests !

Q) What is Silent Apk Installer ?

Silent Apk Installer is An Application that is installed on target's device which requires very less permissions while installing.Upon Installation it Connects to C&C Server and waits for Url to download new apk from.

Q) Why to use Silent Apk Installer ?

Sometimes you donot have physical access to your spouse / kids device.So it requires to send surveillance apk through sms/email.But when the user tries to install it , it asks for a lot of permissions which might make it suspicious for the user to install.So apk installer downloads it from the C&C server(Url could also be sent through sms).

Q) What features do we get in initial release ?

In the initial release apk connects to server.You can get device details through server (all user accounts and other details) and a Command to install.In the initial release url can be sent only through sms .Later we will start adding other features depending on customers count.

Right now we have opened Advanced Payment/Booking for Private builds for Only 30 users.

Add us On Skype : [live:crook_62](#)

for further details.

We are done !

Apk Right now can

- Download apk silently.
- Install Apk silently.
- Can download huge apks as well.
- Stealth.
- Auto Boots on Startup ?

Yes , but takes 3-4 days for testing.We tell everyone that a nice and quality product requires testing and debugging.Cheers !

Will all this be added to your RAT or sold separately?

don't forget to make a video and upload it as a demo.

Baud - October 12, 2017, 5:15 am

This sounds interesting, hit me up if you are willing to give out a few vouch copies.

Did this get completed? I'm interested in the silent apk installer, did you also manage to code a RAT to with with it?

michaelwood659 - October 23, 2021, 8:21 pm

Hello chat me i need a silent apk exploit

alex36 - November 4, 2021, 5:35 am

Interested too. Please give feedback if it runs how u discribe.
