Much appreciated, man. I am merely a re-seller but can help with any questions or support.

Why did the original owners First account get banned and Second account?

Does the pay \$60 for a Request still stand?

Not sure what you mean, all I know is I am allowed to sell this for him (I PM'd Staff to clarify before accepting his offer). Could you please explain what you mean about the request?

The person you're selling for is closed on HF twice before this.

This user is the Owner (Fresh account made a day after previous gets Closed. First post on his own thread vouching)

Previous account got closed yesterday:

His previous account was a multi made a day after his old one was closed yet again

Pretty sure in this instance its not allowed?
