Thread: [100 USD Steam Gift Codes @ 65 USD Each \[GET YOUR STEAM GAMES CHEAP!\]](#)

Hypnotist - October 10, 2017, 9:00 am

I'm selling \$100 Steam gift codes at \$65

I only accept BTC.

These will redeem to your local currency on your Steam account.

All codes are checked before sending and will not be removed from your account. These are 100% safe to redeem.

I have been selling these for a very long time with 100% success. No complaints.

Looking for new daily buyers.

I stock new codes daily!

I use to sell at \$50 but I have many people that will buy at higher rates now.

Sorry to all previous buyers.

Currently \$100 (USD) will stock other currencies soon such as GBP and EUR. (50's)

XMPP: op@riseup.net

PS: I will not lower the rate.

I don't use MM or go first ever. YES! I see you're reputable on HF. Please do not neg rep me for denying you this. I mean no harm in denying this it is just a rule I have made for myself with all deals.

I have sold to few members here in bulk \$1000+ deals.

I don't go first. I don't scam. My codes are legit.

Still unwilling. We can do the codes 1 by 1 if you need to be like this. I have 3 left.

I do not scam. Ask: Banana :D

He has sent me \$1000+ a time for codes. Bulk. Don't waste my time.

So you two are working together? Do you know that Banana isn't reputable at all.
