Thread: [Free Exploit To Make 13M+ Per Hour On 8 Ball Pool \(Miniclip\)](#)

Jimmie - October 10, 2017, 7:56 pm

I have a exploit to make 10m-15m coins+ per hour on 8 ball pool reply here if you want this exploit and I will send you it.

The method:Spoiler [\(Click to View\)](#)

First before you can even do this method you will need two different accounts with 5 legendary cues on each and 50m+ coins on each.

1. Install bluestacks+8 ball pool on pc and load up 8 ball pool.
2. Do the same as step 1 on a cellphone with mobile data or a different ip.
3. Login one account on the computer and one account on the phone.
4. Join the 50m table at the same exact time and wait to see if you get matched up with your alt.
5. If you do not get matched up exit out of the game asap.
6. Repeat steps 4 and 5 until you get matched up with your alt account.
7. Once you get matched up lose on one account then the next time win on that account and repeat all of these steps you will gain 1.2m coins per 50m game.

How does this exploit work? If you have 5 legendary cues you get a 5 percent coin return if you lose so at the end of the day you are just transferring 50m from alt to alt and gaining 1.2m each time.
