Thread: [Scammed by Hypnotist \(2476428\) for \\$50](#)

Night - October 11, 2017, 8:10 am

His profile link: <https://hackforums.net/member.php?action=profile&uid=2476428>

The deal was my \$50 btc for his \$100 Starbucks gift card. Wanted to see if the user was legit, so I took the risk of buying from him. He responded once to my message with "Yeah man no worries just waiting for it to process - sorry for the delay." He then proceeded to take a one month ban.

What a scumbag, I knew he wasn't right in the head when he made those stupid threads yesterday about that guy's twitter. Food stamps probably ran out so he needed to scam for some grocery money. Also his away reason makes me think that maybe he tried to exit scam multiple people.

Rotely - October 11, 2017, 12:00 pm

Damn he is exit scamming :/ someone else also sent him money .

ohlynx - October 12, 2017, 4:06 am

Many sent him money, he's going to refund x5 the amount when he returns though. I have him on Jabber.

He is being watched by the feds and cannot make money. He is coming into money though and will refund x5 the amount when he's back.

Can't believe I thought he was legit.

He's definitely scamming. He scammed that poor guy in BTC for the steam codes too, I guarantee it.

I'll be editing my rep on him asap.

He's scamming but he's not scamming because it's a x5 refund. Don't edit your rep you goon.

This sounds like a load of BS, he is not going to refund anyone let alone x5. He is just as delusional and paranoid as the guy he was posting threads about.

Yeah that was definitely a red flag but I guess OP trusted him and really wanted the GC.

Don't tell him what to do, as it stands he currently scammed a member and has not refunded him.

This user has admitted to selling carded gift cards in a post he quickly deleted, sorry for the loss but I wouldn't expect to get anything back.

Damn, sorry to see you got scammed. It does look like he won't be returning any of the money he scammed you out of.

Your boy just want some cappuccinos, yeah he was sketchy, but I took the risk.

ganstephanos - October 16, 2017, 11:04 am

The guy was selling 3 Steam cards at 55%, glad I didnt buy them

Mastor - October 16, 2017, 11:09 am

How pathetic and poor do you have to be?

Threatening people on twitter? Sounds to me like he wanted the quick 50 to buy a LQ Multi-Cracker lol...

I hope someone scams him right back.
