Thread: [Your name on a paper hold by a girl - free & instant](#)

Ultrapreneur - October 11, 2017, 3:49 pm

Heey guys,

noticed people offering services here on HF to have your name written on a paper or body part of a female.

I wanted to start a free service but with photoshop for this but then received this site from a friend and i figured this website would be easier and less time consuming for me to share for free instead, could help people interested in this service but are broke or simply dont wanna spend cash.

This site's results come pretty close to what is being offered on HF i would say:

PS: This website is not developed by me, just sharing it incase someone needs it ?

Thanks!

EDIT: Oh wait, nevermind, I'm an idiot. I can do it myself with that site you offered lol

Thanks for the share.

Personally I have no use for this as I don't E-Whore and do my own Photoshop work but this could be extremely useful for people without PS skills and whatnot, cheers!

The front nude kinda looks more realistic in my opinion because is like further away

James Burnham - October 11, 2017, 7:28 pm

Why is this in the marketplace discussions? Just move it to e-whoring.

Heh i placed this originally in the lounge, didn't notice it was moved to marketplace discussion in the first place.

I think they moved it because several people sold services similar to what is being done by this site for free, not sure tough ?

Are you ever going to add the support to upload your own image, and move the text around, or is that something you will not be supporting?

I think you mis understood, i don't own this website, as stated by someone else already (will add this to the thread post itself aswell) this website is not made by me, i'm simply resharing it because of people selling similar services so i figured this could help people here and there.

Second I saw the URL I was gonna point that out.

But VOUCH.

Yo, I mocked up a image and sent it to my girl as a joke just to see her reaction.

- She fucking blew my TXT and Messaging up demanding to know WHO the chick was.
- When I tried to ignore it, she started blowing my phone up by calling.
- When I bruhed that off she was ready to fucking LEAVE WORK to come and get the chicks address to go confront her directly. LMAO...

Thats when I had to crack and tell her what was up..... But yea Vouch, shit works, sometimes better than it should, lmao.??
