What Is The Reputation Needed For Posting Links In The Referral Section???

Crystallize. - October 12, 2017, 8:11 am

Which section are you referring too?

You need a minimum of 50 posts to post links, not only in the referral section.

Probably so HF doesn't get a bunch of random shit posters with 5 posts who just want to try and get ahead by using the Referral section, although clearly that isn't stopping anything in a lot of cases.

This is true.

@OP, keep on posting for a day or so and you'll be able to post links.

Alternatively you can upgrade to L33T and you'll be able to do so right away.

Please read [Requirements System Explained](#) for more information regarding the Requirements System.

Also;

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

I don't think that reputation is needed for posting in the The Referral Section section. It would have said that in section rules if so.

Only 50 quality posts in order to post links and images.

You don't need any reputation to post there, just you haven't reached the 50 posts threshold for posting links. Make sure not to spam your posts.

Thanks.
