Thread: [Made \\$700 BTC in two days \(around 3 hours of talk\) Ewhoring](#)

Trevor Phillips - October 12, 2017, 9:50 pm

I tried to ewhore for the first time ever this week (for fun) and after going through like 20 or so timewasters, I landed on a guy who wanted to meet with me in London and I convinced him to send me \$100 BTC for Nudes and Vids.

He did that after around 30 minutes of talk, and the payment confirmed. I then proceeded to talk to him for another 1 hour and a half and convinced him that I was real and that I would come and meet with him and we would date and become a couple (corny, I know, but it was worth it), and that we might get married (LOL), and that we would have kids and shit like that.

After all of that he literally sent me \$400 BTC on top of what he already sent to meet me in London this weekend. I couldn't believe my eyes.

Tomorrow i'm going to try and milk him for more, but so far I can't believe how lucky and smooth my first Ewhoring experience was. I really thought I wouldn't make anything, since everyone is saying they go entire weeks without earning \$10.

Here is proof:

Here is the BTC addy that got the \$400: 16vp1KKxk11jAew4cZjGT31AP53Yk375pD

*****UPDATE OCTOBER 13th*****

So I tried to milk him today as I said I would do yesterday and he sent me \$200 more dollars through BTC LMFAO!

Here is the wallet that he sent the \$200 to: 3HiMJerWuu9rs9y8aMMPEmXFgmGiorrGKD

I now have \$700 from this guy from less than 3 hours of texting!

Makes me want to attempt it, but I'm sure this is a very rare thing to come across. However, gz Imfao that's hilarious

If you are done milking him, send him a picture of yourself with a nice watch.

Definitely give it a go. I latched onto this opportunistic target but I'm sure there are plenty of other idiots out there.

Mad... was he already familiar with btc or did you walk him throw it till he sent the money?

The Piggy Bank - October 13, 2017, 3:17 am

Good job. Try to milk him more and take his car ?

A nice... watch? What a waste of money, lol. Not like your phone has a clock on it, not like you can't buy a much cheaper watch that does the same thing as a \$400.00-1k grand watch does.

No, because I'm not a sheep. You can have fashion without mindlessly blowing hundreds if not thousands on a watch, LOL.

But an expensive watch is more impressive to people and will make you feel more confident.

Also, nobody said anything about hundreds, or thousands of dollars.

He said a "nice watch" and you went off on one.

If an expensive watch is what makes you confident around people, then that's kind of sad in my opinion but hey - that's you. Everyone's different. I don't need a flashy watch to boost my ego or my confidence.

Yeah, I know. I apologize. I just thought it was a little silly.

A watch is more convenient than getting your phone out of your pocket.

What if your phone runs out of battery and you have no clue about the time?

A good looking watch that suits the rest of your outfits looks just awesome. It promotes your masculinity also. It gives other people a better first impression of you in many situations.

It's just classy and makes yourself feel more dignified.

There is something about the analog look, instead of 4 digits on your phone.

boys look at their smartphones to check time – men look at a watch.

Some people value practically a lot more than fashion. Which isn't a bad protocol. It's all subjective.

Yes, but would you feel more confident wearing a shitty \$5 watch or a \$150 Hugo Boss watch?
I would much rather just purchase the \$5 watch (if I even wanted a watch), but I'd much, MUCH prefer to wear the Hugo Boss watch, even if I'm not seeing anyone else.

I've bought £25 jackets and have received more compliments from people on night outs as opposed to my friends who usually spend within the region of £100-200 on jackets.

Same with watches, an unbranded £35 watch got me more compliments & questions compared to my friends £400-500 watch.

It's all about knowing where to get your stuff from and not follow the branded hype, sometimes unbranded stuff looks a lot cooler and you save a lot more.. to spend on cars ?

I absolutely agree, too.

It's just the concept of wearing things deemed to be "higher-quality".

As in, I got a \$700 suit for \$230 and I feel fucking invincible in it, even if I had an \$80 suit or whatever I'd still feel like a boss, whereas I wouldn't feel that awesome in a \$300 pair of tracksuits and \$600 trainers.

I'm really happy to hear this, it stand as an inspiration for guys like myself.

I only have a bit of problem, which is that I almost made \$100 dollars on my first attempt also after investing so much on unsaturated packs and shits like that. I have put so much that I'm now broke.

The issue here is that I lost the perv because I couldn't verify that I was real I have tried to video chat with him severally but all the methods I have used and he can't see me. I actually used skype and manycam because I use a p.c for ewhoring.

At first I felt he was lying until I tried view myself through skype and manycam method and shit it was true. I have tried every method on youtube and even several method talked about here, especially the one using the old flash player.

Now I just invested everything I have by getting an android phone because my pc can't take memu, bluestack and others.

since you have already gained experience on this I beg for you to tell me how I can get pass this stage, either on my pc or on my new android phone.

Please help a brother in serious need as I have already spent so much and have achieved nothing.

I can't pm you because I don't have enough post to do that so I would appreciate you assist me either by sending me a message of the solution here or by pm

Thanks a lot and awaiting swift response.

Well, I can't help you with the technical details because I do not use Skype or Manycam. I use KIK.

My advice to you is not to use a VC and to send live pics on KIK and then use your SE to convince him you are real.

Verifying you are real is SE, not a matter of how many pics or how many videos you send.
