Thread: [Simple Base64 to exe and vice versa](#)

NYANxCAT - October 13, 2017, 12:31 am

Hello guys

I'm sharing my first vb .net application
as you see below, it's a convert exe to base64 and vice versa
download <https://github.com/HMJ7/base64-or-exe/releases/download/1/Base64.or.EXE.exe>

Not exactly the tool in the OP, but an online solution:
<https://www.browserling.com/tools/file-to-base64>

As for programatically completing the task, I have an old crypter example that encodes the payload using base64 over here <https://hackforums.net/showthread.php?tid=5904533>
