Hey there I placed an order on 10/19. Understand you mentioned, "Depending on your order and the situation you may have to wait a bit longer." How long I would have to wait approx?

jaark - October 23, 2017, 10:53 pm

Received less than half my orders after one week of waiting.

OP hasn't been online in a few days so hoping they can sort me out once they're back.

In the meantime I'd probably wait and see if he delivers the rest of my orders and nitrodancers before placing your own.

Galaxias - October 23, 2017, 11:47 pm

Are you able to do this for ubereats?

nitrodancer - October 24, 2017, 8:00 am

I've gotten in contact with the seller he told me my order should be fulfilled within two days I will report back if it gets delivered. I noticed the same thing he wasn't online in quite some time so I want to give him a fair chance. I was compelled on buying this service as a price drop and the seller has been doing this for quite some time.

KissMyAxe - October 25, 2017, 9:56 pm

How much money do you usually get for a ride?

Salman Khan - November 8, 2017, 7:05 pm

Shooting you a PM.

Like to buy this service from you.

Trusted Guy.

Are rides going through/being added? If so, I'll buy some, but the other ride sellers (off site) I've gotten rides from before are saying there's an issue with Uber related to a new policy change or patch. Is that the case right now?

not sure if he's still doing it, but afaik there are still ways around it.

i got my rides from him when i ordered a little while ago :)

Same the only one issue I've had is the delivery takes forever especially if you need them urgently.

My last order which was two weeks ago still worked. I had ordered 4 rides which took a long time to deliver. Recently I just ordered another two rides but i'm guessing it will take at least one week to receive them.

Yea but it was only some time last week where Uber changed or patched something. So 2 weeks ago must have been when things were still working.

I asked my main seller again tonight if their ride referrals were working, and they said nope. Seems like a few other sellers I've been in contact with said no too.

Hopefully a work-around or fix is found soon, because these ride services were saving me quite a lot of money per month.

I haven't received anything either. Mines approximately the same thing. With the amount of time he's taking we should get a few for free.
