(Mar 21, 2017 01:09 PM)Computerjul Wrote: [\[CITE\]](#) Here is my honest review for Astro Profit:

At first I didn't like the content inside because it looked a bit too difficult for me, but after I re-read it and understood the methods, I was kinda motivated to start doing them right away.. After I read it the second time it all made sense and I started doing them right away (didn't wanna waste any time). I can honestly say I got in some trouble along the way but Cyam helped me almost immediately and I was able to set the methods up.

I didn't have high expectations, had no sales first day and no money made from the methods, but I didn't lose my hope. Second day, I had 3 potential buyers overnight and I managed to make money from all of them.. This is the result:

I made \$100 in the easiest way possible, I TRULY DIDN'T KNOW MONEY MAKING ONLINE was so easy.. thank you a lot for this e-Book and hopefully by the end of the month I will have enough for new PC and monitor, Eavac made this possible and they have my deepest vouch.

(Feb 25, 2017 08:21 AM)Alex Moore Wrote: [\[CITE\]](#) Once again eavac e-Books didn't disappoint me.. They released a new update to Astro Profit and here are my results from it:

Not a huge amount, but this is only a start.. Was able to make \$28 literally overnight, thank you for your support eavac

not sure if I'm the only one who made this much with this guide, but im really satisfied ?

(Feb 8, 2017 12:04 PM)ZikiMMV Wrote: [\[CITE\]](#) First of all, I want to start by saying that I have purchased the Astronaut package (can show proof of payment) and that wasn't paid to create this review...

Originality: 10/10

I personally never encountered with any of the provided methods and that's the first thing I was happy about when I purchased Astro Profit.. Many e-Books before disappointed me with unoriginal methods I have already saw in free e-Books, but this one is 100% different. There are total of 4 methods and I never seen any of those..

Layout: 10/10

The layout of the ebook is best I have ever seen ever in my life (I purchased many ebooks before outside HF and saw a lot of them on the internet).. Whole guide consits of pictures and so called Helpers that explain each picture in detail and overall organization of text and pictures is very pleasing on the eyes.. I can right now say that guys from Dollarmond took quite some time to write and design the eBook because it's really good, trust me when i say this...

Money Making Potential: 9/10

Of course you won't get a button to earn on the internet.. you have to work in every method, but that's good because you feel like you deserve the money you earn.. When I started with method #2 I felt like a real businessman and it definitely introduced me to a whole new world of online money-making. I'm really satisfied with both methods and feel that this e-Book gives.. I believe everyone should buy this because it will both expand your knowledge and give you a feeling you're a true businessman dealing with real customers and earning real money.. :)

Overall: 9,5/10

I'm really satisfied with this ebook because first of all, you get a beautiful ebook with good methods inside.. basically everything you need to start making money online.. It introduces you to a new world of money making and basically forcing you to become a businessman.. I also want to mention that dollarmond support answered all my questions I had (i always want to be sure I'm doing everything properly..) and I can proudly say I made my first money in only few days.. I can't be happier with my purchase and even as I'm writing this I had one sale (for \$20)..

Here is my proof of earnings:

(Feb 6, 2017 02:35 PM)bilkebogtejebo Wrote: [\[CITE\]](#) Im really surprised with ebooks content, there are total of 4 methods and I definitely never heard about any of them.. they definitely have potential because I started with method 2 and already seeing some potential money from it.. Got their help within minutes of asking and I'm really satisfied with it so far.. Will update this with pictures of earning

My rating: 10/10 so far

Its a pretty good book I was surprised how much work was put in. I mainly used methods 1 and 4, 2 and 3 were kinda difficult for me. Earned about 93\$ in 2 days, minus for what I paid for a book, leaves me about 60\$ of profit. Pretty good, but I still have some work to do. Il continue working and Il post my updates.

Do the methods require investments and if so how much on average would I need to put in to start making money?

Just purchased this ebook, can't wait to look through it, get to work, and hopefully see some results.
