Thread: [\[Repeat\] suggestion](#)

subliminalnarcotic - July 28, 2010, 10:00 pm

not sure if you can set this as an option or if its been suggested before but..

if someone quotes you and replies maybe a notification? a type or pm or something?

would be cool if you close the tab or maybe even if its an old thread and you get quoted and replied too and dont know, and NOW YOU CAN >:D
