Thread: [Accepting Bitcoin w/ Stripe on Big Cartel?](#)

Sharjah - October 16, 2017, 1:29 pm

Anyone able to assist me with this?

<https://stripe.com/docs/sources/bitcoin>

Not too well with Big Cartel or any sort of coding when it comes to payment processors such as this one.

This should get you an idea on how to code an API call and auth on stripe:

https://www.youtube.com/watch?v=QT3_zT97_1g

Replace all the CC code with the ones from Bitcoin docs and it will work.

An hour long tutorial.. as much as I'd love to learn how to code an API call and etc, I'd only be using it for this one thing, so not really worth my time to watch it all haha. Thank you though!

If the site doesn't have a plugin support for Stripe or something, usually such things take more than an hour to code.

Stripe is integrated with Big Cartel. I'm just unsure how to mess around with the API and such when it comes to Big Cartel's editing
