I have annoying user constantly posting bullshit in my sales thread. i have reported posts but no action was taken against him. what can i do ?

M?xim - *October 16, 2017, 5:02 pm*

Gather the posts and send them all to a staff member. Otherwise just link your thread and his profile and they will review.

I have dealt with this before, generally speaking I just report it to staff and they usually get nuked.

Eagle 95 - *October 17, 2017, 12:51 am*

If no action was taken, not much.
