Thread: [9k USD scammed Fizure UID 31516 / Admitted scamming over 9k USD on HF](#)

PinesMinion - October 17, 2017, 1:27 am

I got scammed 450 USD bitcoins by Fizure. This member has scammed 9k USD in total on HF. He admitted being a scammer and told me of his actions.

He recently scammed someone in the amount of 1350 USD.

Name of the Scammer: Fizure, 213 Rep, Ub3r:

I paid 450 USD for a SIM swap. He said he will send an envelope which will arrive on Monday. Has not arrived yet. He then admitted being a scammer on Skype after I talked to him. He said he needs the money to pay for her mother in hospital, but then later when I said "Maybe your mother is in hospital because youre a scammer", he said that "Maybe he is lying".

Apparently he bought the Account for 80 USD. He deleted that message on Skype though.

The Ub3r Cluezy <https://hackforums.net/member.php?action=profile&uid=3442196> first - repped Fizure for being a scammer a few days ago, after reading the 1350 USD deal dispute. Now he + repped him and I asked him why he did it. Now both of them (Fizure and Cluezy) negative repped me.

Aaaaaaand this is what happens when you trust someone online. ?

Def a sketchy situation. Especially being dudes admitting to ripping people off.

I repped him because he did nothing wrong to me, idc if hes a scammer, i just wont deal with him

oh btw, I negged you because you got upset at my reasoning.

Your false scam accusation is against the rules too.

Hey. I changed my rep accordingly. Still unreal that you support this guy and even gave him +3. You obviously know he scammed since you rated him -3 after reading the 1350 usd deal dispute.

Well I guess it wasnt that much but he bought the account offsite just to scam people. Really sad.

Your DWC is still invalid because what I did doesn't harm other users nor am I 'sketchy'
Changing the reasoning wont make me remove either of the reps on you two.

btw, i dont support him xd, kinda gay that he scammed but his rep doesnt matter if he does get banned.

You're doing shit for no reason lmfao.
