hurborro - October 17, 2017, 7:32 am

Deletred since apparently I was breaking rules...

Sorry about it

Purple Kief - October 17, 2017, 7:43 am

CAUTION: This is likely an infected download. Thread with caution.

Edit: Took a look at it, does not seem malicious at first glance. Still thread with extreme caution.

Edit: Took a look at it, does not seem malicious at first glance. Still thread with extreme caution. Dude I can't even make a FUD stub for myself, let alone backdoor something. :P

But I understand the suspicion, therefore the "open in VM".

Cheers.

Is topher here? I made a quick search and couldn't find anyone here as topher project owner

Mazekeen - October 17, 2017, 7:57 am

Yes he is here in cryptography section. Not the selling one but in Hacking

Wuduheck - October 17, 2017, 8:00 am

1. Product Keys, Cracks and Unlicensed Software

Product keys, key gens, serials and software cracks discussion or linking is not allowed.. This includes the selling, trading, or requesting of any illegal unlicensed product keys. HF is not a warez forum and we will not tolerate our site being used as one.

We recommend you to take a read at HF help documents.

-> Leaked

-> Cracked

- POSSIBLY infected.

Kief, what the fuck... just report this BS and move on along.....

Sooo many rule violations here its ludicrous.
