Thread: [\[UP TO \\$700/DAY\] SELLING PERSONAL EXPLOIT TO ONE PERSON!](#)

inv3ctus - October 17, 2017, 8:00 am

After discussing with staff, I decided to sell my personal exploit for (PM for company). It is used to get an unlimited amount of \$10 gift cards. The cards gotten have not been bought before. Lots and lots of places to sell these cards. They sell for \$7 on Ebay and you can also find a lot of bulk buyers.

I'm only selling this to one person.

He will receive a hit and run python scripts that can generate anywhere from 10-120 \$10 cards per minute at an internet speed of 2MB/s and lifetime support.

He will also be allowed to resell/give away the exploit. He will be the owner of it.

If you need any proof or information, feel free to PM me.

I won't go first. You go first or we use a middle man.

Alone:

C/O: \$1.7k

BIN: \$3.5k

If you don't mind not being the only owner of this exploit, I can sell this to two people for a reduced price.

Please tell me whether you want to buy alone or not when bidding

Duo:

C/O: ...

BIN: \$2.5k

This is way too less, sorry dude!

JuJu . - October 17, 2017, 9:37 am

I'll bid \$600 BTC with a MM

Dopeish - October 17, 2017, 9:38 am

I'll bid \$800 BTC if you can prove it and use minimalist as middleman.

Bid noted!

I'm good with using minimalist as middleman!

MaDTiA - October 17, 2017, 10:38 am

If I had the funds I would bid \$1000

Is this actually a exploit or are you just cracking giftcards? Cos dat shit is public

An actual exploit. The script uses the algorithm the company uses to create gift cards!

POLY MATH - October 17, 2017, 12:03 pm

I'll bid \$1200 on this, if it works.

Wouldn't sell this for less than 1.5k tbh

Jake???????????????? - October 17, 2017, 12:44 pm

may i ask why you're selling something that can make you this much money

I'm glad you asked. I currently have enough gift cards to keep my shop up for a while. But I need quick cash to pay for school, that's why I'm selling the exploit!

SIM-2508228 - October 17, 2017, 1:13 pm

So it generates the serial code that the cards use?

Exactly, the codes the program gets are ready to use. If you're interested I can show some proof.

No, I do not.

investmike - October 17, 2017, 5:52 pm

You're better to hide the name, someone will contact the company about the exploit...

Oh well, welcome to HF, we're all stupid here.

Please look at this answer.

But thank you!

SpamHer0 - October 18, 2017, 5:06 am

Sent you a PM. I ll confirm my higher bid after i get answers.

Thanks

Or when they need quick cash and have enough gift cards for some time ;)

I added a duo buying option!
