Thread: [MAKE SHITTON OF MONEY \[CRACKERS ONLY\]](#)

Crystallize. - October 17, 2017, 12:15 pm

I am not going to do a thread design for this as it's simple.

I wouldn't recommend you to buy it if you don't have CRACKING skills.

Method itself includes selling accounts but in a specific way that profits you.

Price is \$100 you can make it back in 48 hours if you work hard/ you will get my private configs for sentryMBA.

I don't go around and promise you thousands monthly sitting your ass, it all depends how you work.

Example I know people who worked hard cracking accounts and selling them and makes profit like 5-6k monthly

What you need is:

\$80 to be invested for instant activation./or you can wait manually till you get activated by site owners.

Cracking skills(sentryMBA)

Proof of my earnings (1/2 weeks time span between payments)

ToS:

I will not refund after method is sold.

I don't guarantee how much you will get that is entirely up to you.

Payments will be done in btc only.

My current earnings (6 days)

P.S: ANY HF staff is free to ask me for proofs of the method.

Thanks Lani.

This is the best time to buy the method because you have guaranteed big earnings if you work hard.

So uh.. Sentry MBA is a skill now ?

Creating configs for sentrymba should be considered as skill.

It falls under cracking category.

There's obviously more to his method than simply using Sentry MBA, retard.

You are escalating this the wrong way. I was being genuine as I run 3 alternate account shops such as GucciAlts, SapphireAlts, and CakeAlts. I have no beef what so ever with Crystallize nor do I with you. You had a misconception what I said. ?

Ah, Okay thank you for the clarification!

GLWS! ?

Crystallize. - October 17, 2017, 1:07 pm

Thanks guys!

Apparently I forgot to mention that you will get all my private configs to help you cracking.

This method with the configs ready is really easy even if you are a beginner.

Crackers as in being racist against white people.

Anyways, on topic.. how difficult would it be to get into as someone who has no previous cracking skills?

Cause people with knowledge on how to crack are the targeted consumers for his product?

Exactly, I don't want people who like to sit in their ass and want money then open a deal dispute on me if they can't make money.

I am going to let the first copy off for \$100.

You'll get my own private config pack that I work with. So no for now you don't need to know how to make configs until the sites update themselves. And yes you can use combos private or public it doesn't matter as long as they are good. I use public combos and I get shitton of accounts, we are not allowed to sell combos in HF though.

my current earnings

<http://prntscr.com/h0a2oj>

If none buys within 24 hours I will consider closing the thread and not selling.

Crystallize. - January 9, 2018, 10:25 am

Still for sale.

Current earnings

Don't miss it....

I'll let this go for \$100 but you will receive no extra support meaning you will only get the method without configs etc.

nitoh - January 10, 2018, 12:18 am

Bookmarked for later. Been out of the brute-forcing game for a while, this might pull me back in.

Good luck with sales

Thanks bro :)

This is the best method in HF, no lame ass methods that cant even give you 5 dollars.

This method is effortless if you have basic cracking skills.
