Thread: [\[Australia Only\] Free Traditional pizza \[Dominos\]](#)

MR.Nitro - October 19, 2017, 4:50 am

Microsoft are doing a promotion thing with dominoes and they are giving away free pizzas (Traditional range only). Just go to this [Link](#) and do the quiz. For some reason it didn't work for me using chrome but it worked on ie.

Quiz answers are:

- 1) Canada
- 2) Matt Damon
- 3) Macaulay Culkin

Enjoy your free pizzas.

I believe the free pizza is only valid if your order is above \$20, or something.

So it's more of a "buy 1 get 1 free" kind of deal, rather than a free pizza.

How do I claim, it said I won a pizza after the quiz but redirects to the claim page but nothing to do with pizza there ?

Nope, its a free pizza. You don't need to order anything else.

Oh. Is it free with delivery too? Or pick-up only?

Nevermind. You have to use a new account not linked with M Rewards.
