Thread: [Protection vs Skype resolvers?](#)

Vedom - October 19, 2017, 8:02 am

How can i protect myself from Skype resolvers or how can i hide my IP in general?

Kody - October 19, 2017, 8:09 am

Check out a VPN - there are many free ones that will get the job done

Exe - October 19, 2017, 8:31 am

Switch to discord and all the problems will be gone

?Paddy? - October 19, 2017, 8:41 am

Switch to discord or make urself away from keyboard(the red thing) on Skype, resolvers can o line resolve it if ur on the green thing(online)

James Burnham - October 19, 2017, 8:43 am

Web.skype.com + proxy on the browser.

Hornbuckle - October 19, 2017, 9:07 am

Use discord. No one uses skype anymore, If you really need it use a VPN.

Targus - October 19, 2017, 9:12 am

(Oct 19, 2017 08:43 AM)? Mr. Burnham ? Wrote: [\[CITE\]](#) Web.skype.com + proxy on the browser. Skype for Web is more than enough, actually.

oRequiem - October 19, 2017, 9:29 am

You could just use a simple .reg editor with free proxies to hide your IP.
Or you could just use a vpn every time you load skype up.

5chn4pp - October 19, 2017, 11:21 am

Use a program that is not proprietary.

Stashyy - October 19, 2017, 11:22 am

uh
use discord
ditch skype, it's shit
