Thread: [i got huge knuckles wtf?](#)

IS-14 - October 19, 2017, 11:45 am

I just turned 15 a few months ago and I just realized how big my knuckle (middle one) is.

Have you ever thought that maybe your friends have extremely small knuckles compared to you? There's one way to see if I'm right, measure your hand size next to a female, if it's the same size then you know that you have bitch hands only meant for slicing the crust off of sandwiches.

Huh? Those are huge compared to mine and I'm 20. The hand size is normal but those knuckles look like they're swollen.

Lion - October 19, 2017, 12:00 pm

Wow dude I heard girls are attracted to knuckles these days.

No, but, in all seriousness, your knuckles look a little big to me. Not super huge, but they do look bigger than they should be. Could just be your body type, I wouldn't really worry about it.

IS-14 - October 19, 2017, 12:10 pm

<https://imgur.com/a/Orqm2> made 2 more pics , on the first ones they didnt look as big.

You realize bigger knuckles break easier but don't cause any more harm than normal sized

knuckles right?

GU€€I - October 20, 2017, 2:36 am

What I've heard is that smaller knuckles generate more power in punches due to the smaller surface. Your knuckles aren't even big so don't worry about it

SIM-1589588 - October 20, 2017, 3:22 am

Your knuckles are either swollen or filled with fat buddy.

You both got them warrior knuckles. And couldn't help but laugh at the brass knuckle story, funny. You both should start boxing, get that strength, stamina and technique. If someone is messing with you later on, show them what them knuckles do. ?

A man who's walked the heavy shoes happy to see you're doing very well now.

It really is a mental difference between those who are born with a silver-spoon and those who grow up "tragically", trust me I know.

I can tell by all the old friends I knew didn't grow up well, and those I have met later on who's been born with the silver-spoon.

And I know myself..

What I am trying to say is, you've dealt with your shit, and sure more will come that is life, but I am sure it has shaped you into something great.

A kind lad with a big heart, and don't mix that with weakness people ??

Hope prison wasn't all to bad, glad you went professional. Take care man! ?

Fraud, Identity theft, Computer Tntrusions and few more minor cases.

Did 1.6 Months in Emigration jail after that got send to Juvenile Hall since I was not 18 at the time.
Was there for about 8 months did the rest in California State Prison.
