Thread: [Official Group | Harmony Recruitment #1](#)

SIM-1729678 - October 20, 2017, 2:54 am

Harmony is opening up for new recruits.

If you have a passion and drive for anything related to Music, TV & Movies or Graphics and Photography this is your chance.

We are looking for members dedicated to their field of expertise.

The group will be based on 3 divisions for the time being:

- Music
- TV & Movies
- Graphics and Photography

Each division will have a leader that will direct them down the right path. Over time, they will work simultaneously in groups to complete guides and tutorials.

Requirements :

- 100 posts
- No open or unresolved DD's or CA's
- You must have a positive reputation
- You can not have a warning level greater than 20%
- You MUST be active & social

To be able to join Harmony, you have to apply in this thread (NO PLACEHOLDING). The application is a free-form application, meaning it can be anything you want. BUT, there have to be a few points included:

- ? Make sure to let us know which division you are applying for.
- ? Let us know what your interests are in the division you've chosen.
- ? Show us some work that you have done on that subject.
- ? Age/Time zone/HF account age (Year (S) -Months-Days).

Make the application as big as you want but be sure to not make one-liner applications, they will be denied instantly.

Your activity and behaviour overall will be evaluated. Applying here doesn't mean you'll be accepted, so do not bother any of the leaders about your application. Doing that will get you denied and blacklisted.

It will be a rolling recruitment. The recruitment will stay open until we have the desired amount of members.

Good luck to everyone that applies, Harmony is a great and fun group to be in.

Fortunate - October 20, 2017, 3:01 am

Good luck to every applicant. Harmony is indeed a great group.

I'll be writing mine later today once I get home from work.

Yo whats up, I'm Ruby. Music is honestly my passion. I already make good money as it is, or *was*. Soon to be again though. Even though I am making money, I want to become an EDM artist or Rapper. I am alright at both. I plan to first learn to make edm then once I get bigger do rap. I know it sounds dumb maybe to some people. But anything is possible. Also, on top of that I am very very social. If you check my threads I just tried to see if anyone on hf would want to meet for some events. I actually flew to ohio from washington to go to lost lands a huge dub festival. I met a FEW hf members there. Was really fun, also I've been to over 20 events this year concerts / festivals. Music festivals are my favorite thing to do. Thats why I want to become an edm artist so I can go to these events all the time.

I am very friendly though and one of the main reasons I want in is to meet new people and gather their intakes on music. Meet great people, and spread my knowledge hoping I can help some people out.

Sector applying for: Riddim, Music.

Love you dad cx

Just an extra note: I am looking for a decent amount of members, don't be afraid because you think you don't fit, make sure to apply!

The Piggy Bank - October 20, 2017, 3:43 am

Harmony is an amazing group! The community is great. Good luck to everyone who is trying to join ?

Orchid - October 20, 2017, 5:29 am

We need some active members! On and off HF, the Discord is quite quiet at the moment.

?uncho - October 20, 2017, 5:49 am

Hi.

I would like to apply for the music sector in your group because it's always been a passion for me and whatever I am doing, work or leisure, I will always have music playing in my headphones. I currently don't have any contributions towards the music section, however, I don't believe there is much to provide unless it's a particular song I believe is noteable and will interest others. I am nineteen years old and I work at my own technology repair store during the week or I pop in to manage orders and other things since I have people working for me, nevertheless, I am going to be extremely active within this community.

Hopefully you will take me into consideration and I can finally be apart of a working venture on this

forum where I am able to contribute and meet new people for future benefits. If not, great, I appreciate you reading this and I wish you the best.

Hey,

I would like to apply for "Graphics and Photography".

I am fully day Graphics designer, i am very passionate about Design, I love to design..

you can see my work here: https://www.behance.net/balvant_ahir

Design Say Every Thing. :)

Chloe Price - October 20, 2017, 11:22 am

Heh, sure why not.

15/GMT/ 0y 1m 8d

Guess i would apply to "Movies and TV" since i'm starting to binge watch TV shows

Right now, i'm intrested in Mr Robot (season 3) and just finished the office!

Dont really know how i can show that i did this, but yeah.

Applying for a group isn't like applying for a job, this 'application' resembles a job application moreso.

Ohhh, i don't have any idea how to do that. but i try my best, can i resubmit..????

Geass - October 21, 2017, 3:01 am

I would like to apply for your group, I am not very good at writing this things but will give a try.

My application is for movies and tv series division since I love spending my time watching them (anime too but I guess you don't have that) and looking forward to join your group to see others people interests and share mine, I believe I am enough social and active.

This is my first application on HF group so don't expect something special since I am really bad at applications generally.

My account is 4 years old, more specific it is 1680 days old.

I am 19 years old and my time zone is UTC+01:00.

SIM-1729678 - October 23, 2017, 3:25 pm

Even though HF is going through changes the recruitment is still up.

AlphaTurtle - October 24, 2017, 8:37 am

Hey, I'm Alpha Turtle :)

To be honest, I don't know which division to apply for because:

I love Music. I've been playing the guitar for 7 years and I'm actually beginning to compose songs. I might get to share my compositions and get feedback from this group; if not, I still like talking about music and instruments; it's one of my biggest passions. (none of them are anywhere online so I can't show you any work on this subject)

I love TV & Movies. I have watched movies and tv series alone and with my family for my whole life. We have a small cinema set up at home and we watch tons of movies. I'd love to give and get TV & Movies recommendations <- probably the top reason I would join this division for. (no idea what work I could provide for this subject)

I love Graphics and Photography. (Does video editing belong here as well? I did some projects in Adobe After Effects). Also, my brother is a photograph so I have always been kind of involved in that as well. I'm also doing graphics for an instagram page from time to time, and I'd love to get more in depth when it comes to that. (The work I did on here it's not spectacular, and I honestly don't know what could I share with you)

19 / GMT+2 / 10 months 21 days

I seem to be shitty when it comes to applications lol. Have a nice day!

SIM-1729678 - October 25, 2017, 2:17 am

More recruits are welcome, we are looking for more members!

Nosi - October 26, 2017, 9:22 am

I go by the name of Nosickman in these forums and I would like to apply for the Graphics and Photography subdivision, specifically the Graphics division, as graphic design has been my great passion for more than 4 years now.

I am still quite new to the forums but enjoy myself on here a lot of the days, given I am not going out or having to work at my shitty real life job.

I have been giving away free graphics to members of the forums during my first month here (which I sadly cannot do anymore, because: time.) and strive to do similar giveaways in the future, too.

I am currently 20 years of age and currently wait and work to save enough funds to finally follow my dream and start studying graphic design at an university. I live in Europe namely in the CEST which means all my down under friends are never available to talk to. My account is only little over a month old, but I will be here for a long time (0y - 1m - 17d?)i suck at maths is this even right

I hope to find a group of people with similar interests I can learn from and I can talk to, I will also be happy to give back to the community whenever I can.

Hopefully you liked this application I just wrote and accept me as one of yours!

Sincerely,
Nosickman
