Thread: [I just successfully joined hack the box](#)

fogstone - October 21, 2017, 2:04 am

After about two whole days of trying, I successfully completed the mission to join Hack the Box. It took a while but it was worth it. I will have a very fun time getting through some other Hack the Box missions. In case you didn't know, Hack the Box is a site that requires you to hack them to join.

That's awesome dude! Keep up the good work and perhaps you'll prosper into bigger and better things!

They have really good hacking challenges and you have to hack them to join them.

What do you gain by joining the site? Are there things you have available there that you didn't know/have before? Basically, is it a good reward?

You get really good hacking missions, a second forum, and loads of challenges in different careers to solve. But they are all very difficult challenges.

You also get access to otger stuff but it's a long story.
