pishicat_Injector - October 23, 2017, 1:53 pm

This Tut By My Freind BlackRose Sent by e-mail

hallow to all member and all my friend here in HF forums I'm BlackRose, I send to my friend Gamal (pishicat_Injector) by mail to added this thread on behalf of me because I made new member here and I can't do this by my self now.

I was absent for some time, And I have done all my works for my friend Gamal in 9/10/2017 for some time

because My mother was in intensive care in this time, and she now good as I wish, any way I come now to look for any new in sql section but I see my account [BlackRoas] is forbidden from work here, I don't now way, but my friend Gamal say to me there many member here reported me as multi account and this is wrong, I don't need to other account to work here with you [But I can say for account InjectorBoy it's my account I made this account for some reason but it's forbidden too from work here] .

But I'm so angry to see many member attack on all Gamal tutorial in sql section, This is bad behavior of everyone, Gamal share our knowledge for free here, and this work come to by work between us(GHI(3)member- Ahmed,Gamal,Basem) so way you attack on a good job here.

yes I see Gamal use some wrong word with some member here and I know he has done a lot of mischief to other, and I see him in some tutorial have bad behavior with some member, But he is a good-hearted man and not bad to this degree I know hem, but this is not Reson to attack in all Gamal tuteril as I see, But I hope you start with him a new page I spoke with him about all his irresponsible actions here and he promised me to improve his behavior with you thx.

Notic to sql section mentor : I see many War of words in some Gamal thread not stop until you closed it, Thx for closed Gamal (pishicat_Injector) that's Which he behaves badly with others.

Notic to pishicat[r3dcat] : for what I see happen from Gamal with you I can to say it's badly behaveor with you, and I know you learned Gamal some knowledge in sql and other good things as he say to me befor, so it's badly behaveor form muslim with other muslim like you or with other member too, and I have been very upset when I see Gamal described you as an Iranian terrorist, who said that Iranians were terrorists ? All the Iranian people are muslim brother to us, and for my opinion if any thing happened to any Iranian people I will defend About them until I die , I'm so sorry hear that from muslim to other, I promis you as I'm member number one in GHI Team [I mean I the

founder this team] if I see this bad behavior repeats it again with you I will dismiss him from my Team and I will never work with him ever again, Regards Sir

Notice to my friend JaNuS18 : I'm one of the most proud people of this friendship with you, But sometimes I have more messages to ask for help, That's why I created this account Because you did not care much about my messages, So I apologize for this, Regards Sir

Our Hard Work For All That Love SQLI Field

Some of our work to share, I will not to say it's sql priv8 as my idiot friend Gamal say Before, but it's our hard work, and no one learned us this work, but we get it by our hand, and as you & me know no one sharing his hard work for free, but as we member in GHI Team, we develop this field for free to have more fun in this unlimited field, for all this who love sql injection, and we not need to any thing from you opposite this work just you can say to us think's if We deserve it no more, Regards

1- •???? Rule_One_For_Test_Site_To_SQL_Injection ????•

To test site for SQL Injection you are adding after the variable number TO site

- 1- Single Quote ? '
- 2- Double Quote ? "
- 3- Letter ? a
- 4- Adding Letter To Single Quote ? 'a Or To Double Quote ? "a
- 5- Adding Dot . Before The Variable And Then Adding Single Quote After ? ID=.10'
- 6- Adding Dot . Before The Variable And After The Variable IN The Same Time ? ID=.10.
- 7- Adding Single Quote Before Variable Number ? ID='10
- 8- Delete The Variable Number And Just Adding Single Quote ? ID='
- 9- Delete The Variable And Add Just Slash Condition ? =\
- 10- Use ??Logical?? ??Operator?? ? And 1=1 , And 1=2

Some Example

2- •???? Work For SQLI WAF Bypassing By Using False Statement ????•

Example

Quote: [https://pizzacrust.com.pk/deals.php?id=polygon@\" order by 100 asc-- -](https://pizzacrust.com.pk/deals.php?id=polygon@\)

Normal Logical operators

Blind TIME BASED ? | 8°-SQLI-?

3- •???? Nulling The Column ????•

Other knowledge not to us

4- •???? The Join Syntax Multiple Queries Injection In Routed Query Mode ????•

5- •???? Adding Data By Using Encoding ????•

Famous Issues

6- •???? if table only except number from pass column in Windows server ????•

7- •???? Get Column NUmber ????•

•???? End What We Will Share With You Hope You Wait More From Us Soon ????•

Big Regards For All my friend ^__^

That's All Regards

BlackRoas-GHT - October 23, 2017, 1:58 pm

Thx Gamal For Added My Thread , Regards
