Thread: [count.cgi exploit](#)

drillBYTE - *October 24, 2017, 10:00 am*

okay - so i have little to no working knowledge of the above-mentioned exploit. i have google'd everything i can about it but it seems to be a very vague exploit.

so if anyone has some good reading resources or websites which would be able to shed some more light on it, i would be most grateful.

the cgi is sitting in cgi-sys/count.cgi

never heard of this... Have you found anything atall, like very small detail.

arthurgc - *March 18, 2019, 1:40 pm*

This might help (it doesn't always work though ... it depends on the CGI vulnerability: exploit-CVE-2014-6271
