A family friend is being deported leaving his wife who has cancer and two children alone.

I would appreciate it if everyone who sees this can leave a vote as the family does not deserve this.

I'm not sure why if you have nothing to say, you decided to still say some ignorant bullshit.

On topic, hoping for the best for your family friend. Really a devastating thing to go through for a family, and I truly hope that they will overcome this. Thank you for sharing.
