I can take that vouch copy, hmu!

Edit: I already knew this method and most of the time there is still a small fee. I'm pretty sure that the method works, but you have to be 18 years or older to use it which I'm not so you should give another vouch copy for someone.

TahidJKMT posted previously "Do you know a way to get cheap PSC? I will buy it if you can help me with that"

So, is this something that you need to know to make this work? If so is that covered in the ebook? I have never used PSC before.

Is it one of these two public methods:

- Top-up the PSC's on Skrill then withdraw to bank?
- Apply for PSC debit card and top it up and then withdraw from an ATM?

Probably a public method, you can just redeem your Paysafecard on sites like Unibet or other gambling sites who accept Paysafecard, than you can simply deposit to your bank but be carefull because this is illegal.

If you look on paysafecard.com, you can find the gambling sites in your region, thank me later.
