FAQ

Q: What if I don't gain followers?

A: You will gain GARUNTEED REAL followers on DAY 1. If you don't, with proof, I will give you a full refund.

Q: Do I need anything other than the method?

A: YES. You will need an initial 10\$ (unless you purchase the elite package), that's all you need.

Q: Do you use (so and so)?

A: I will not reveal my methods, it's in the guide.

Q: Are you giving out any vouch copies?

A: No, I'm currently growing 5+ accounts for people on HF. They will vouch, and their screenshots are in the picture above.

Q: How many followers do you personally have?

A: I'm currently running a 5M+ follower network across my many IG accounts, I can gladly DM you from one of the accounts.

Aw rip, I'm broke. Really interested in this but if I were to buy the 25\$ package, I'd have nothing left for the 10\$ needed to grow my account. :(

Vouch for Biggy! Great seller, glws

Jake???????????????? - October 27, 2017, 6:12 am

May I ask what the growth is like monthly on average for an account niched sort of girly / soft memes?

edit: sorry nvm I realized this is an eBook. GLWS op.

I REALLY wouldn't even consider this an e-book, it's an informational guide on growing your own instagram account.

Kinda like all these services that people are doing to grow your account for you, but to grow your own.

And the growth can vary, you can probably see anywhere up to 10k+ followers in your first month if done correctly.

Bro is this the method I gave you last night for free?

I've been growing my own IG pages for months, I didn't grow all those accounts in the thread design in 1 day from 50 likes. :)

Oh, well I haven't even used that yet so no it's not regarding that.

That method was only gonna be used for me to get 50 followers for a specific reason.

I'll show you my method if you wish, but you are pretty up there in the IG game so I'm sure you know what I do. :)

I would be quite impressed if you found a way to do 10k a month, most services can only do about 3-4k in a month.

Yeah I spoke a bit out of my tongue there, 10k is definitely hard to achieve. I'm about 1 month in on my animal account and I'm at 7k followers.

Biggy - October 30, 2017, 11:19 am

Still the best way to grow your Instagram boys!

Superman - October 30, 2017, 11:26 am

I see in your sales pic how you grew @contour_style to 5k followers (now 7k), but with all that followers, you're only getting 30 likes?

Humbled - October 30, 2017, 2:02 pm

How much do the followers interact with your content? Ive seen so many accounts with 100k+ followers with only around 1k likes on their posts. Id really like to know how interactive the followers are. Id also like to see a good vouch on this.

Not sure why you'd pm me then post on my thread, but that page is harder to get likes on due to the niche.

I can gladly pm you my 70k page which gets well over 1k likes per upload.

So you're saying that fashion niche is hard to get likes and comments?

You obviously don't know what you're talking about, if managed right this can be one of the most engaging niches.

With 7k real likes you should AT LEAST get 100 likes which is not even 2% engagement rate, which is still really really bad, especially considering your low follower count. You don't even have one single upload with 5 comments or more.

All in all this just shows what a potential buyer can expect from your service ;)

PS: its called "refund guaranteed" not "refund garunteed"

My account is at 7k, but around 2k of them are bad followers from another service. One of my main pictures (which is just a babe picture, even though it's a fetish insta) has 1k likes, but I average 250-400.

Well I'm dropping a personal vouch for him- I have used him for ewhoring purposes and made around \$200 off of one account with little to no work, and am about to grow another one with JUST his services.

Biggy - November 1, 2017, 11:28 am

Thanks die the vouch! Get your order in now!

How much you make from ewhoring doesn't directly correlate with the quality of OP's service. I'd like to see some hard proof and screenshots of follower engagement and impressions.
