Thread: [How do I use RSS Syndication?](#)

Orchid - October 27, 2017, 8:40 am

RSS Syndication at the bottom of the page, I know how to use RSS but the link just redirects to www.hackforums.net

Uhm, generate the syndicated url for a certain section as provided on that PAGE.

Omniscient - October 27, 2017, 8:56 am

It shouldn't redirect to index.

<https://hackforums.net/misc.php?action=syndication>

Maybe I need to look at the code. Does anyone else get the index page instead of the syndication?

It's working for me, not that I ever use it anymore.

I'm taken to misc.php?action=syndications where I get to choose all the details, then a link is provided.

Maybe I need to look at the code. Does anyone else get the index page instead of the syndication? I explained it wrong, so for example: <https://hackforums.net/syndication.php?fid=105&limit=15> is a forum I wanted to test. Shouldn't it produce a link.xml, that I can add to a feed?

Meh, I've had RSS disabled for a long time. I suppose I'll activate it again. Should work now. You may need to refresh your browser.

Pretty sure I noticed it enabled on the forum prior to 1.8.
