Thread: [>>>\[FREE TRAINING\] Let me mentor you and teach you how to build an online income!<<<](#)

Jack_Sparrow - October 28, 2017, 6:02 pm

What's up Hack Forums,

I've set myself a goal to help 100 people make an additional income online. (I am not charging for this)

To do this I want to teach people how to use simple landing pages matched with influencers and FB ads to make money.

I'm only taking on people who are serious and will actually put the work in to get the reward and not just half ass it.

The method of teaching will be via videos and possibly webinars, you will have direct contact with me also.

I have come up with a couple questions which applicants for this are required to answer before I consider taking you on.

If you follow my guidance and do this properly you will make money.

Questions:

How much experience do you have in online marketing?

Do you have money to invest and if so how much?

Have you used Facebook ads before?

Have you used IG influencers before?

What is your age?

If you are interested in this opportunity simply answer these questions and if you fit what I am looking for I will PM you with more information, remember I don't want any one that's half assed and will mess around.

Cheers.
