Thread: [Requesting a thread design](#)

Frankey - October 29, 2017, 4:48 am

Hello,

I am going to launch my own League of Legends boosting service soon, but for that I'll need some kind of thread design. You can put your name in the design and I'll also link your profile/portfolio on the thread.

If you are interested in making something for me, let me know. I have some examples that I like.

Still looking because I do not think the other person still want's to do this.

If you do, let me know! <3
