Thread: [Max post length issue](#)

Ombra - October 29, 2017, 7:25 am

I was attempting to edit a thread of mine and this alert popped up:

How is it my limit is 8.000 chars while Ub3r + 3p1c should be 24.000 (according with upgrade page)?

Malentor - October 29, 2017, 7:26 am

Probably new forum version changed the limit, wait until omni look this.

Charger - October 29, 2017, 7:26 am

This was posted on I think page 40-50 of the broken thread. Omni probably hasn't got around to doing it yet.

You gotta either wait or if it's urgent then pastebin it and PM staff nicely.

Guess I skipped it. Not an issue anyway, I will just wait. Thanks :)
