Can you already redeem these codes upon your COD account?

Or do you need to wait after the game is released and can be played.

Looking forward to a response ?

I can give you your first one to test if you would like. I wanna say you can but I'm 90% sure. I know PS4 and Xbox is 100%. You can login with your steam so I fully believe you can with PC, but just in-case I can let you try the first one before you buy them.

Yes, because when you reach the limit it will give you a msg that you hit the "entry limit"

So multiple codes does work ?

I know multiple codes work. I mean, if I load up 50 codes onto my account and use up all that 2xp, can I load more?

As far as I know once you hit the limit you hit the limit. One thing I'm going to try is when the game comes out I'm going to get all of my double XP in game and then make another CoD account and link my PSN and see if I can do another 50.

Also everyone I have about 600 codes left! They're going very quick.
