Thread: [Does this Report Bot website work?](#)

Aficionado - October 30, 2017, 12:49 pm

<https://reportbot.io/>

Is this real? I stopped hacking a while ago and now again enjoy the game. This idiot on the other team was rage hacking so our whole team reported him.

Just wanting to know if the report bot website above is real :P

Just use zonerbot.xyz, I'm pretty sure tht it's legit, the owner is on hf aswell.
Don't know about the site you linked

Its just a javascript function that is called and randomly generates numbers with a little delay to make the reports and echos it to a div.
