i will bring the best cheese pizzas that hf has ever seen

I'd probably make it into a mini lounge and place where people can interact differently as if they were in the official lounge. Let me know if that's eligible.

B?ker - October 31, 2017, 2:27 pm

PMd you, I haven't seen anyone have a group or SF dedicated to this.

I'd like to use it to bring Baka back to life

^^^Probably one of the best suggestions you'll get. I'd say that Baka is one if not the only "group" still around that has had active members chatting in their discord even when the group was sold.

I'd like this to happen too. An anime SF would be nice to have again. Baka and it's members were always active so the SF wouldn't be dead. :p

Long live Baka.
