Thread: [Street Photography](#)

Obie - October 31, 2017, 8:23 am

Is anyone here a street photographer or interested in street photography and would like to share some tips and trick on that? Especially human interest.. :)

Thanks

entiretv - October 31, 2017, 8:46 pm

I'm interested. Tips and tricks:

Find a busy place.

Walk around and shoot a little with manual settings. Then maybe try some auto settings just getting a lot of shots.

But I suggest getting creative angles and having fun capturing personalities.

How do you avoid getting caught while taking pictures of people?

just be kind with people, make a conversation with them and ask a permission :)
