Never really had Tabasco sauce but... hey - I've had those Tabasco-flavoured Doritos chips.
Spicy!

Bruh...

?

Its Sort of Salty. Smells like serum.

Cyam - October 31, 2017, 9:44 am

Depends on girl's hygiene. Taking in consideration girl is clean and smells nice instead of being a dirty slut pussy will taste good.

It might sound gross, but try to lick your armpit few hours after you take a shower and you will be closest to licking an average pussy.

Exactly this, OP before licking out a girl please take consideration on the overall girl's hygiene.

Thanks guys for the advice, but hey - I'm totally not planning to do this very soon.

Bowski - October 31, 2017, 9:47 am

Tastes weirdly nice, depends on the girl tho.

Maybe a bit salty sometimes?

In all reality this is the truth. I've been with girls who taste slightly sweet and there's no smell at all to girls who you can smell before they even take their clothes off.

Vip3r_Li0n - October 31, 2017, 9:51 am

Hahah,you should go taste the real pussy for more accuracy.. xD

snappari2 - October 31, 2017, 10:35 am

There's no right answer to this question, One girl could taste like doritos (not really just an example) and the other like my pubes, Just depends on a lot of things.
